There are some diseases that do not arouse our sympathy—the disease is not deep—and therefore our sympathy is shallow. But we very often make a very serious mistakesuch as calling a backache a light affliction. Backache mesus kidney trouble every time, and if you don't drive it away, it will never go of its own accord, without taking you with it. But it does not continue simply as a backache. Soon the arise becomes affected, either too much of it or too little, and in either case it is expelled only with painneute pain. Then comes the sedlment stage, which means cutting sandy deposits and cometimes stones like kernels of corn. Then follows Diabetes or Brights disease. Dan't you think backache dangerous? We do, but must add just a few words, and they are; Doan's Kidney Pills cure every time, and all stages of kidney disease, but it is always best to keep as far from the danger line as possible, and the cure is easier.

Mr. David Thomas, of 204 Mayberry alley, miner says: "I have suffered intensely from my back and kidneys. I was in the hospital for several weeks and when I returned about seven months ago I was suffering from a contippous backache and an acute lameness across my loins. I could hardly get off a chair and it burt me severely to straighten up if I had been stooping or bending forward. There were pains all through my head especially in the top and back part. I thought they arese from neuralgia, but I am now convinced that my kidneys caused it for on getting Doan's Kidney Pills from Kirlin's Pharmacy and using them the lameness in my back and the pains in my head have all disappeared and there has been no return of them since."

President McKinley's Proclamation Made Public.

THEY THREATEN RESISTANCE.

Aguinaldo, It Is Reported, Has Gone to Holle to Lead the Insurgents in-Case of a Fight With the American

Manila, Jan. 6.-President McKinley's proclamation to the Filipinos, cabled to Major General Otis from Washing-ton, has been issued here. It is in substance as follows: The destruction of the Spanish first

in the harbor of Manila by the United States naval squadron commanded by Rear Admiral Dewey, followed by the reduction of the city and the surrender of the Spanish forces, practically ef-fected the conquest of the Philippine slands and the suspension of Spanish sovereignty therein.

"With the signature of the treaty of peace between the United States and Spain, and as the result of the victories of American arms, the future conthe Philippine Islands are ceded to the ment thus assumed, the actual occupatained by the United States in the city, harbor and bay of Manila is to be extended with all possible dispatch to the whole of the ceded territory.

'It will be the duty of the commander of the forces of occupation to announce and proclaim in the most public manner that we come not as invaders or conquerers, but as friends, to protect the natives in their homes, in their employments and in their personal and religious rights. All persons who, either by active aid or by honest submis-sion, co-operate with the government of the United States to give effect to these beneficent purposes will receive the reward of its support and protec-tion. All others will be brought within the lawful rule we have assumed, with firmness if need be, but without sever-

ity, so far as may be possible. "Until the legislation of the United States shall otherwise provide, the municipal laws of the territory are to be considered as continuing in force, and to be administered by the ordinary tribunals so far as practicable. The operations of civil and municipal goverument are to be performed by such officers as may accept the supremacy of the United States by taking oath of allegiance, or by officers chosen as far as may be practicable from the inhabitants of the islands.

"The taxes and duties heretofore payable by the inhabitants to the late government become payable to the authorities of the United States, unless it be seen fit to substitute for them other reasonable rates or modes of contribution to the expenses of government. If private property be taken for military use it shall be paid for, when possible in cash at a fair valuation, and when payment in cash is not practicable recelpts are to be given.

"All ports and places in the Philip-pine Islands in the actual possession f the land and naval forces of the Inited States will be opened to the ommerce of all friendly nations.

"It should be the earnest and para-mount aim of the military administration to win the confidence, respect and affection of the inhabitants of the Phil fppines by assuring to them in every possible way that full measure of individual rights and liberties which is the heritage of free peoples, and by proving to them that the mission of the United States is one of benevolent assimilation, substituting the mild sway of justice and right for arbitrary rule." issuing the proclamation General Otis expresses the opinion that it is the intention of the American government while directing affairs generally to appoint representative men, forming the He also expresses himself as convinced that the United States government intends to seek the establishment in the islands of a most liberal government, in which the people will be as fully repre-sented as the maintenance of law and order will permit. He also asserts his belief that the United States government intends, as far as consistent, to draw upon the Fitipines' military force in making the civil appointments. Nothing is said in the proclamation regarding the disarmament of the

Junta in Hong Kong Denonnees Our Government's Attitude. Hong Kong, Jan. 6.-Leading repre

sentatives of the Filipino junta in Hong Kong, in the course of an interview with the press correspondents, declared that the serious crisis in the Philippines is due to what they designate as "overt, unfair treatment of the Filipinos by the United States," They said that, despite the known fact that the whole of the Visayas group was in possession of the Filipino forces, General Otis was ordered to take possession of the entire archipelago and dispatch troops and warships to the southern Visayas. The Filipinos, according to the junta representatives, are determined to pre-Hollo, and may, as a last resort, de-stroy the city for strategical purposes. The junta insists that a rupture the friendly relations now existing between the "Filipino national govern-ment" and the American executive is imminent and that hostilities are probable unless what they characterize as the "unreasonable, unfair and over-bearing policy of the Americans" is modified. They say the Filipinos "would deeply regret such a rupture, modified. but would accept it as inevitable,"
In concluding the interview the "The Filipinos appeal to the said: American people to uphold the rights of mankind and to avoid bloodshed, assuring the Americans of our desire to complete a friendly settlement

through an impartial commission of inquiry. The Filipinos loyally supported the Americans against the enemy, and they now look to the Amer ican nation to fulfill the promises made to Aguinaldo at Singapore before he proceeded to assist Admiral Dewey. All the Filipinos ask is the truest and best

Paris, Jan. 6.—An official telegram received by the Filipino junta here, dated Manila, Jan. 4, says that Aguinaldo has gone to Hollo, at the reques of the insurgents there, to place himself at their head, with the view of their possible fighting with the Amerteans.

A member of the Filipino junta here

explains that Aguinaido did not run away, but "left Manila for the moun-tainous region behind Cavite, in order to make secret arrangements for his voyage to lioilo." He also asserts if the Americans insist upon the occupa-tion of the principal cities by the American troops the whole of the Filipinos will "resist by force of arms."
